## Day 5: Money Consciousness | Forgiveness | Wealth

Today, Incredible One, I'm just going to get right to it... is the 7-year-old version of yourself running your business? ([Watch today's challenge video](#) to understand what I mean.)

Regardless of your answer, I'm going to tell you that the answer is yes. As I share in the accompanying audio, it's been proven time and time again.

I know firsthand that there is a strong correlation between how you see money, forgiveness, and your ability to create wealth. Let's break this down into three (3) parts:

### Part 1: Your Money Backstory

In order to prepare for Next Level Everything, we have to get you ready to have more than enough of the green stuff. And the way you have seen money up to this point is impacting your business' ability to create more of it.

**Hear me:** You are an entrepreneur, which means you have a printing press and you can print money whenever you want, period! That means the words *"I can't afford it"* or *"It's not in the budget"* should not be a speech sequence you are familiar with. But you and I both know that is not your reality (*wink, wink*). Let's begin to change that, shall we?

**What's your money backstory?** A money backstory is based on how you allow money to exist in your life.

## Part 2: Forgive Your Money Past

I know you're wondering what in the world forgiveness has to do with your ability to create significant wealth in your business but if you have a desire and it's not yours yet, it's because unforgiveness is keeping it from you. It's principle. *Pay close attention to what I share in the challenge video accompanying this worksheet.*

**What have you learned about the role forgiveness plays in your money consciousness and wealth creation?**

## Part 3: Wealth Creation

Until you understand your backstory and acknowledge and forgive your money past, you won't be able to see money in the right way to create wealth. Yes, I know that wealth is about more than money but trust me, your next level everything requires shifting the way you see money from a practical and legacy standpoint. This means your "client to client" lifestyle has to go.

When you struggle with money unforgiveness, you often avoid conversations about wealth with yourself. But that ends now...

**Do you know the EXACT number it will take for you to experience wealth that you could leave to your grandchildren's children?** (This is the Next Level Everything Challenge, right?!) And yes, you need to know the EXACT number so that you can position yourself to manifest it.

---

**Why is this the number that will lead to true wealth?**

---

---

---

---

---

---

**What does this quote mean to you?**

*"If you believe that you have to work hard for money, then money cannot come to you unless you work hard. Financial success or any kind of success doesn't require hard work. It does, however, require alignment of thought."*

**Final question:** Maya Angelou says “when we know better, we become better because we do better.” Now that you are more conscious about money and ready to experience a shift in the way you and money relate, are you ready to become better by doing better so that you live your NEXT LEVEL EVERYTHING?
